ARCHER INSTALLATION & SOLUTIONS
COMPLETES THREE MAJOR PROJECTS FROM COAST TO COAST

LAS VEGAS, NV--- Archer Installation & Solutions, Inc. of Las Vegas announced today its concurrent completion of three major installation and renovation projects totaling more than 1,200 rooms and guest suites, interior and exterior common areas, food & beverage areas, entertainment and recreation areas, restaurants and conference centers. The projects included major renovations for Fontainebleau Miami Beach, FLA, Westin and Wildwood in Snowmass, CO, and Palms Resort Casino in Las Vegas, NV.

According to Todd Hyde, Archer CEO and founding principal, the modern efficiencies of this relatively young and highly streamlined company, combined with the experience of a seasoned management team, enabled Archer to successfully and simultaneously oversee and execute three major hospitality projects of this magnitude in three regions of the country.

Over a four-month period, Archer teams oversaw the dismantling, removal and liquidation of the furniture, fixtures and equipment (FF&E) from Snowmass Colorado's 271-room Westin and the 160-room Wildwood, while also providing the same services at Miami's Fontainebleau with 209 junior suites and 184 one bedroom suites on 30 floors. The liquidation of the Westin/Wildwood project was remarkably accomplished over 10 days and resulted in the removal of 50 truckloads of FF&E. For the Palms, Archer oversaw the dismantling and removal of the hotel's FF&E from 390 rooms located over 24 floors. During the same time period, the company also completed the installation of tens of thousands of pieces of furniture, artwork, electronics, fixtures and equipment at the three properties.

"To simultaneously complete projects at Fontainebleau Miami Beach, Westin and Wildwood in Snowmass, CO, while completing a major renovation at The Palms in Las Vegas, is quite an accomplishment given that Archer is still in its first year. We are extremely proud of the job our installation teams have done at all three sites and look forward to an even more exciting and ambitious 2013," said Paul Gonnerman, Archer president and founding principal.

Founded in 2011, Archer is led by a highly experienced management team with extensive installation and logistics experience in the hospitality and retail industry segments. The company is quickly earning a reputation for excellence, reliability and efficiency in providing 3PL turn-key services including installation logistics, warehousing, distribution and transportation management.

"I could not be happier with the job our project managers and installers have done. To demonstrate Archer's ability to handle multiple projects throughout the United States at the same time speaks to our commitment to serving the hospitality industry as one of the country's preeminent installation companies, " said Hyde.

About Archer Installation & Solutions, Inc.

Located in Las Vegas, NV and Minneapolis, MN, Archer Installation & Solutions, Inc. is a leading provider of installation and 3PL services expressly designed for hotel/motel and retail clients. The company is led by a highly experienced management team with more than 30 years of combined experience in the logistics industry, successfully managing major and highly complex projects throughout the U.S. The company has the resources, personnel, advanced technology and demonstrated ability to service the needs of national, regional and local hospitality and retail chains as well as individually-owned and operated hotel and retail locations.
